

Village of Cherry Valley
806 E. State Street
Cherry Valley, Illinois 61016
Lawn Sprinkler System Permit

The Village of Cherry Valley hereby requires anyone installing a lawn sprinkling system, which is on the public water supply, that the system be installed in accordance with the State of Illinois Plumbing Code: Section 890.113 & 114. This code requires the installation of proper back flow protection equipment. A copy of the backflow device inspection must be submitted to our office after installation.

Also, in the event sprinkler heads, etc. are installed in the public right-of-way of Village streets, the Village will not be responsible for any item or damage incurred; e.g. snow plowing, excavation, etc. In the event of the need to do any excavating in the area of the sprinkler system, the Village will make an effort to notify the property owner prior to excavation to allow owner ample time to remove the system to avoid damage.
